

Microbiological Colloquium

Time: 17:15 h, Room: ICBM W15-1-146

- 04.05.11 Lars Wöhlbrand, University of Oldenburg
"Genome and proteome of *Desulfobacula toluolica* Tol2, a sulfate-reducing aromatic compound degrader"
- 01.06.11 Peter Schupp, University of Oldenburg
Title to be announced
- 15.06.11 Andreas Kappler, Eberhard-Karls-University Tuebingen
"Microbial Fe(II) oxidation in modern and ancient environments"
- 29.06.11 John Vollmers, Göttingen Genomics Laboratory
„Komparative Genomanalyse von *O. arcticus* 238 und *O. antarcticus* 307“
- 13.07.11 Jens Kallmeyer, University of Potsdam
"A new model for global seafloor microbial biomass estimates: How much is really down there?"

Guests are cordially invited!

M. Simon and H. Cypionka
