

Microbiological Colloquium

SS 2016

17:15 h, ICBM Lecture Room W15-1-146

- 06.04.16 **Sara Kleindienst**, Universität Tübingen
Microbial key players of hydrocarbon degradation - from natural seeps to oil spills
(Host: Heribert Cypionka)
- 20.04.16 **Carol Arnosti**, University of North Carolina
Microbially-driven carbon cycling in surface and mesopelagic waters: new insights, new questions
(Host: Thorsten Brinkhoff)
- 18.05.16 **Tim Engelhardt**, ICBM, Oldenburg
Viral activity and life-cycles in subsurface sediments
(Host: Heribert Cypionka)
- 01.06.16 **Nkacheh Atenchong**, Hannover Medical School
Analysis of Ebolavirus entry factors in cell lines permissive and resistant to infection
(Host: Heribert Cypionka)
- 15.06.16 **Jens Harder**, MPI für Marine Mikrobiologie, Bremen
***Castellaniella defragrans* and the anaerobic mineralization of monoterpenes - from fragrances to biotechnological applications**
(Host: Lars Wöhlbrand)
- 29.06.16 **Hanna Koch**, ICBM, Oldenburg
Nomen est omen? Alternative roles of nitrite-oxidizing bacteria within the nitrogen cycle and beyond
(Host: Meinhard Simon)

Guests are welcome!

Heribert Cypionka
