

Microbiological Colloquium

SS 2015

17:15 h, ICBM Lecture Room W15-1-146

- 15.04.15 **Christian Jogler**, DSMZ Braunschweig
Towards a holistic perspective on the maverick Planctomycetes
(Host: Heribert Cypionka)
- 29.04.15 **Joachim Wink**, HZI Braunschweig
Marine actinomycetes and myxobacteria, still a source for novel chemistry or only a passing fashion?
(Host: Thorsten Brinkhoff)
- 13.05.15 **Lorenz Adrian**, UFZ Leipzig
***Dehalococcoides*-related Chloroflexi in marine sediments**
(Host: Heribert Cypionka)
- 27.05.15 **Mathias Middleboe**, Marine Biological Lab., Univ. of Copenhagen, DK
Phage-host interactions: Nanoscale processes with global scale implications
(Host: Verona Vandieken)
- 10.06.15 **Florence Schubotz**, Dept. of Geosciences, University of Bremen
Elucidating roles of non-phosphorus lipids in bacterioplankton
(Host: Meinhard Simon)
- 24.06.15 **Katarina Ettwig**, Microbiology, University of Nijmegen, NL
Oxygen-producing 'anaerobes' & other surprises in anaerobic methane oxidation
(Host: Heribert Cypionka)
- 08.07.15 **Ryan Paerl**, Marine Biol. Section Helsingør, Univ. of Copenhagen, DK
Physiologies of vitamin B₁ requiring plankton reveal new components of the marine B₁ cycle
(Host: Meinhard Simon)

Guests are welcome!

Heribert Cypionka
